MASTERS, COMPUTER APPLICATION
Lovely Professional University (LPU) · 2020

BACHELOR, COMPUTER APPLICATIONS
SVSD College · 2017

12TH & 10TH
Govt (Girls) Sr. Sec. School, Santokhgarh, Distt UNA · 12th (2014) & 10th (2012)

KEY SKILLS

- 6+ YEARS FRONTEND EXPERIENCE

React JS · Next.js · TypeScript · Redux · React Hook Form · shadcn UI · Storybook · REST APIs · UI/UX Collaboration

PERSONAL

STRENGTHS
Strong communicator, detail-oriented, proactive problem solver, comfortable leading UI delivery.

SOFT SKILLS
Team collaboration, stakeholder communication, mentoring junior developers, adaptability.

PROFESSIONAL PROFILE

REACT / NEXT.JS · TYPESCRIPT · UI ENGINEERING

6+ years of experience in web development (React JS)

OBJECTIVE

To gain confidence and fame using my potential in the field of web development and express my innovative, creative skills for self and company growth.

PROFILE SUMMARY

- 6+ years of experience in frontend development with a strong focus on React JS and modern UI engineering.
- Skilled in React JS, React Hooks, Redux Thunk, and building clean, reusable UI components.
- Sufficient knowledge of Next.js, TypeScript, Storybook, and React Native screen design.
- Familiar with Figma and Zeplin design editors; adept in HTML, CSS, React-Bootstrap, and Material UI.
- Enthusiastic, knowledge-hungry self-starter who quickly assimilates new technologies, skills, concepts, and ideas.
- Creative troubleshooter and problem-solver with strong interpersonal, communication, and presentation skills.
- Able to explain technical concepts clearly to non-technical stakeholders.
- Comfortable using modern AI-assisted tools such as Cursor, ChatGPT, and Gemini to speed up development, debugging, and documentation.

EXPERIENCE

FRONTEND ENGINEER – MUNDRISOFT

WORKING AS MAIN UI DEV ON THIS PROJECT

Project: Inbound – International Student Compliance Platform

- Developed key features in a large Next.js/React, TypeScript application used by international education offices to manage SEVIS-compliant student workflows.
- Implemented and refined complex Standard Group slideouts (Edit & View) with React Hook Form, custom validation, and reusable UI components, ensuring consistent behavior across Admin and Student portals.
- Collaborated with designers and backend engineers to align UI spacing, typography, and error handling with existing design guidelines and improve overall usability.

Contracts React – Next.js / React-based Contracts Management Portal

Contracts management portal that allows administrators to create, edit, and track contractual agreements, assignees, and partner organizations with robust form validation and API integration.

FRONTEND ENGINEER – MUNDRISOFT

2023 – Present
Remote / India

WORKING AS SIDE DEV ALONG WITH DIFFERENT PROJECT

CourseForge – SaaS Learning Platform (Frontend)

- Built and enhanced a Next.js/React TypeScript frontend for a multi-tenant course creation platform, including dashboard, course/lesson templates, asset library, and AI credit usage tracking.
- Implemented complex UI flows with shadcn UI and React Query, such as AI credit transaction history with sorting and infinite “Load More” pagination, reusable delete-confirmation modals, and skeleton-based loading states.
- Designed and developed a new Billing module with sidebar navigation, subscription overview, invoice history table, billing-contact update sheet (supporting multiple alert emails), and an invoice preview screen with print/download actions.

MAJOR PROJECTS (EARLIER WORK)

MTC (My Table Choice) – Restaurant Booking Website

- Built a restaurant booking experience where users can reserve tables across different time slots.
- Implemented a customizable floor plan section to configure areas and add tables according to bookings.

- Worked on CRM and authentication flows including signup, login, and logout.

AutoProsFinder – Vehicle Repair Services Platform

- Contributed to a platform providing vehicle repair services with subscription-based offerings.
- Integrated Braintree payment processing and implemented multiple subscription plans.

QTickets – Qatar Events & Movies Booking

- Supported an events management system for Qatar and Oman, handling ticket bookings for events and movies.
- Implemented flows from event listing through ticket selection, seat and date/time selection, and payment.
- Helped ensure the platform could scale to additional countries in the future.

SYSTEMS & TOOLS

Operating systems: Windows and Mac. Coding editors: Visual Studio, VS Code, and Sublime. Comfortable with Git/GitHub, Figma, Storybook, Jira, Slack, Postman, Chrome DevTools, and Zeplin.

React Query | Formik / React Hook Form | ESLint / Prettier | Responsive Design

ADDITIONAL INFO

Strong communication skills (written and verbal), strong analytical and problem-solving ability, and a good team player who has worked on long-term projects end-to-end. Comfortable dealing with people diplomatically, eager to learn, and actively involved in cultural and academic activities (organizing seminars, events, and presentations).

HOBBIES & PERSONAL DETAILS

Hobbies

- Watching tutorials and learning new technologies.
- Attending educational seminars and tech sessions.
- Editing photos and experimenting with visual design.
